

## MINAFIN RECEIVES GLOBAL ENTERPRISE AWARD

Minafin received the Global Enterprise prize - North of France - in EY's « Entrepreneur of the Year » awards, on 5 October 2017.

As the awards celebrate their 25th edition, EY & partners celebrate the exceptional stories of entrepreneurs who are instrumental in France's economic growth and competitiveness.

In his acceptance speech, Frédéric Gauchet, President of Minafin Group, drew attention to the many different specialties in chemistry. The group's approach to acquisitions is based on acquiring additional skills: "To provide our international clients with a global offer, we must provide a selection of complementary offers. When a new entity joins the group, the new team completes us, they bring with them a new culture and a new approach to our work."

It is this inclusive approach which enables Minafin to keep creating new synergies between its different entities in Europe and the United States, and to offer products and services that provide real added-value to clients of all sectors.

Frédéric Gauchet, President of Minafin Group, accepts the award for Global Enterprise - North of France.

EY Prix de l'Entrepreneur de l'Année

Lauréat du Prix de l'Entreprise Globale Nord de France

Minafin group is a manufacturer of fine chemicals, pharmaceutical intermediates and active pharmaceutical ingredients (APIs) with a long history of providing superior service and innovation in chemistry. Today the group's turnover of 160 M€ is generated by 800 people in 6 manufacturing sites: 2 in the US, 2 in France, 1 in Germany and 1 in Belgium.

The 4 European sites are all FDA approved and have a long distinguished history providing clients with cGMP intermediates, complex fine chemicals, API's, HAPI and generics, contract services for the pharmaceutical and life science industries. These facilities provide a full range of complementary technologies and services to the pharmaceutical industry for small, medium and large volumes of complex, regulated intermediates and APIs.
